

Accessibility statement

Here at Randstad we are committed to providing a website that is accessible to the widest possible audience, regardless of technology or ability. We are actively working to increase the accessibility and usability of all Randstad sites and in doing so adhere to many of the available standards and guidelines. This website endeavors to conform to level double-A of the World Wide Web Consortium (W3C) Web Content Accessibility Guidelines 2.0.

Navigation

We have implemented a skippable area concept on each page and components to allow screen reader users to link to the main areas of the page.

Headings and navigation menus

HTML heading tags are used to convey document structure. H1 tags are used for main titles, H2 tags for subtitles etc. Navigation menus are marked up as HTML lists. This ensures that the number of links in the list is read out at the start and it can be skipped easily.

Images

All images used in this site include descriptive alt tag attributes.

Colors

We have taken care to ensure that the site's font and background color combinations contrast significantly and are effective in ensuring information is still clear when viewed in different color combinations. If you wish to override the site's colors, you can do this by changing your browser settings to your own preference.

Font size

The font used on our site can be changed in size. You can do this by changing your browser settings to your own preference.

Forms and fields

All forms fields follow a logical tab sequence to ensure easy navigation.

Most form fields also have 'label' and 'id' attributes to explicitly associate the form field with its label to allow for easy entry of data.

Javascript

The use of Javascript has been kept to an absolute minimum.

Links

All links have been written to make sense when taken out of context and links that open a new window are described so in the alt tag.

Movement

We have kept the animated images to a minimum on our site to make sure that it's accessible for the user. Furthermore, links in text parts, are underlined to make sure its clearly visible when there is a link.

Video

Video content on our site comes with a text transcript for deaf users. Videos that have no audio content will not have a transcript.

PDFs

All PDF downloads endeavor to be accessible, however if you would like an alternative version please contact us.

Contact
